LABOR FORCE AND INDUSTRY DEVELOPMENTS

Maryland's seasonally adjusted unemployment rate was unchanged in February, holding at January's level of 3.8 percent. Nationally, unemployment remained well above that of Maryland although downsizing in the labor force caused unemployment to inch down slightly from 4.6 percent to percent 4.5 percent.

Over the past year, the number of employed Marylanders has risen by 26,570 persons to reach its current level of 2,899,520.

According to the monthly business establishment survey, Maryland's industrial payrolls advanced by 2,700 jobs over-the-month. The most noteworthy growth on private sector payrolls occurred in the professional and business services and the retail trade sectors. Since last February, Maryland employers have created 23,400 jobs, with the professional and business services and leisure and hospitality industries leading the advance.

Locally, non-seasonally adjusted unemployment rates either declined or held steady in twenty of the state's twenty-four jurisdictions, with eleven jurisdictions reporting unemployment rates at or below the statewide average. Howard and Montgomery counties, with a rate of 2.9 percent, and Calvert and Charles, with a rate of 3.3 percent, were statewide lows.
